EDUCATION

Chandigarh University

B.E. (CSE), CGPA: 7.92

Gharuan, Punjab

2023 – 2027

Rose Public School

Class XII (CBSE), 87.6%

Darbhanga, Bihar

2022

Rose Public School

Class X (CBSE), 90.4%

Darbhanga, Bihar

2020

SKILLS

- **Languages:** C++, JavaScript, SQL
- **Frameworks:** Node.js, Express, React
- **Tools:** Git, GitHub, VS Code, MySQL
- **Core:** Data Structures and Algorithms

EXPERIENCE

CGC Hackathon

Participant

CGC Mohali

March 2026

- Developed healthcare platform to improve access to services.
- Designed responsive UI for better usability.
- Implemented backend using Node.js and Express.
- Delivered working prototype within strict deadlines.

Smart India Hackathon (SIH)

Hackathon Finalist

Chandigarh University

Sept 2025

- Developed IoT-based system for real-time water contamination monitoring.
- Designed map-based dashboard for identifying affected regions.
- Integrated sensor data with web platform for analysis.
- Built scalable solution for rural water safety.

PROJECTS

Sehat Setu

React, CSS, JavaScript, Node.js, Express

March 2026 - Present

- Developed an insurance-focused healthcare platform to securely store and manage patients' complete medical records.
- Enabled insurance companies to verify claims using authentic patient history, reducing fraud and false claims.
- Eliminated the need for repeated medical tests by providing centralized access to previous reports and records.
- Implemented a virtual ID / QR-based system to instantly retrieve patient details for medical and insurance use.

Jal Suraksha

MongoDB, Node.js, React, CSS, IoT

Sept 2025 - Nov 2025

- Developed a Smart Community Health Monitoring system to track water quality and contamination for rural areas.
- Built real-time sensor data streaming and visualization using Firebase Realtime Database for low-latency monitoring and alerts.
- Designed a system to assist ASHA workers in identifying contaminated water sources and reporting field data efficiently.
- Ensured reliable data synchronization and implemented integration testing for accurate and consistent real-time updates.

Bharat MediAid

React, CSS, JavaScript, Node.js, Express

Nov 2024 - Feb 2025

- Developed RESTful APIs for seamless frontend-backend interaction.
- Designed dynamic templates using EJS for better UI rendering.
- Implemented secure authentication system (login/signup).

ACHIEVEMENTS

- Selected among Top 45 teams in SIH 2025 – Internal Round
- Secured Top 3 in Frontend Bootcamp
- NPTEL Cloud Computing (Elite, Top 5%, IIT Kharagpur, 86%)
- Participated in 5+ hackathons demonstrating strong problem-solving and teamwork
